

Make time for life.

Schedule a mammogram today.

You lead a busy life. But you owe it to yourself to make an appointment that could save your life. Schedule a mammogram today at The Connie Dwyer Breast Center at Saint Michael's Medical Center.

Breast cancer — the number-two killer of women in the United States — is highly curable if detected and treated early. Make time for a checkup.

The Connie Dwyer Breast Center affords patients ready access to life-saving procedures and the convenience of receiving all key services at a single location. Experienced staff provide the best in compassionate care, delivered with an emphasis on patient privacy and comfort.

Offering fully digital mammography services using the latest diagnostic equipment available, The Connie Dwyer Breast Center is the only facility in the region featuring an innovative Rapid Diagnosis program to ease the anxiety of waiting. A patient who undergoes a breast biopsy in the morning can receive a diagnosis that same day.

Make time to schedule an appointment for yourself — or for your mother, sister, daughter, aunt, or friend. To learn more, call (973) 877-5189.

When she and her husband, Bob, decided to contribute to the establishment of a world-class breast center, Connie Dwyer, a breast cancer survivor, acted out of love for their daughters, Susan, Becky, and Maureen; for their granddaughters, Emma, Sarah, Kathleen, Margaret, Emily, Rachael, and Caroline; and for families like theirs throughout the region. Connie and her family know firsthand the vital importance of early detection and expert treatment. And they encourage all women to consider scheduling a checkup today.
